

Let's explore 3D shapes

Here are some great ideas to help to learn all about 3D shapes.

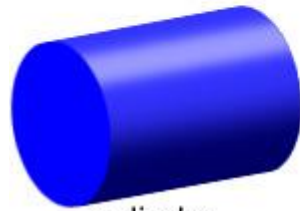

rectangular  
prism

sphere

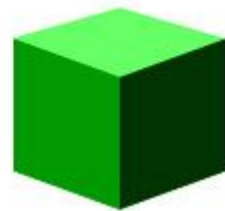

cone

cylinder

pyramid

cube

Go on a 3D shape hunt around your house. What 3D shapes can you find? See if you can find a sphere, a cube and a cuboid. Can you find any other 3D shapes? What are they called?

Use some empty cardboard boxes and packaging to make a model. Maybe you could make a model house, a car, a castle or a robot. Talk to an adult about the different shapes you use. Which shapes are easiest to build with? You could take a photo or draw a picture of your finished model.

Which 3D shapes did you learn today?
