# Home Learning Bingo

Pick an idea and colour in the square.  
See if you can get 5 in a row!

|  |   |  |  |   |
|--|---|--|--|---|
| read 10 books  | draw a picture of your family                             | bake a cake or cupcakes                                  | ride your bike or scooter 3 times  | go outside and build a house for mini-beasts                  |
| go birdwatching - see how many different birds you can count         | blow up a balloon and play balloon tennis indoors         | take a bath and make a crazy hairdo with bubbles!        | ask a grown up for some sums and solve them                                  | do a jigsaw puzzle  |
| make a den fort using sheets and chairs or a clothes horse           | turn a stick into something-a wand, a kite or a stick man | paint a picture of a imaginary world you'd like to visit | look at the sky at night and then draw a picture using chalk and black paper | go outside and invent a ball game                             |
| create an obstacle course  | make up a dance routine                                   | make a connect the dots picture for someone to solve     | help a grown up with a chore job around the house                            | make a mini city using cardboard boxes, blocks and small toys |
| practise counting in 2's, 5's and 10's by taking steps up the stairs | make a fruit smoothie with a grown up                     | put on a puppet or magic show                            | make some jewellery with pasta and string                                    | make a craft from a book or printable                         |

Lesson 2 for the online phonics teaching can be found here...
