

Today's challenge

Can you complete this sequencing activity? Use time language to talk about what you do in a school day.

Sequencing My School Day

Look carefully at the picture cards and talk about what is happening in each one. Choose the pictures which show what you do at school and stick them into the correct order, from the beginning of the day until the end.

Can you make your own? Think about all the different things you do in a day. You can draw or paint pictures to create a wonderful diary of your day.
